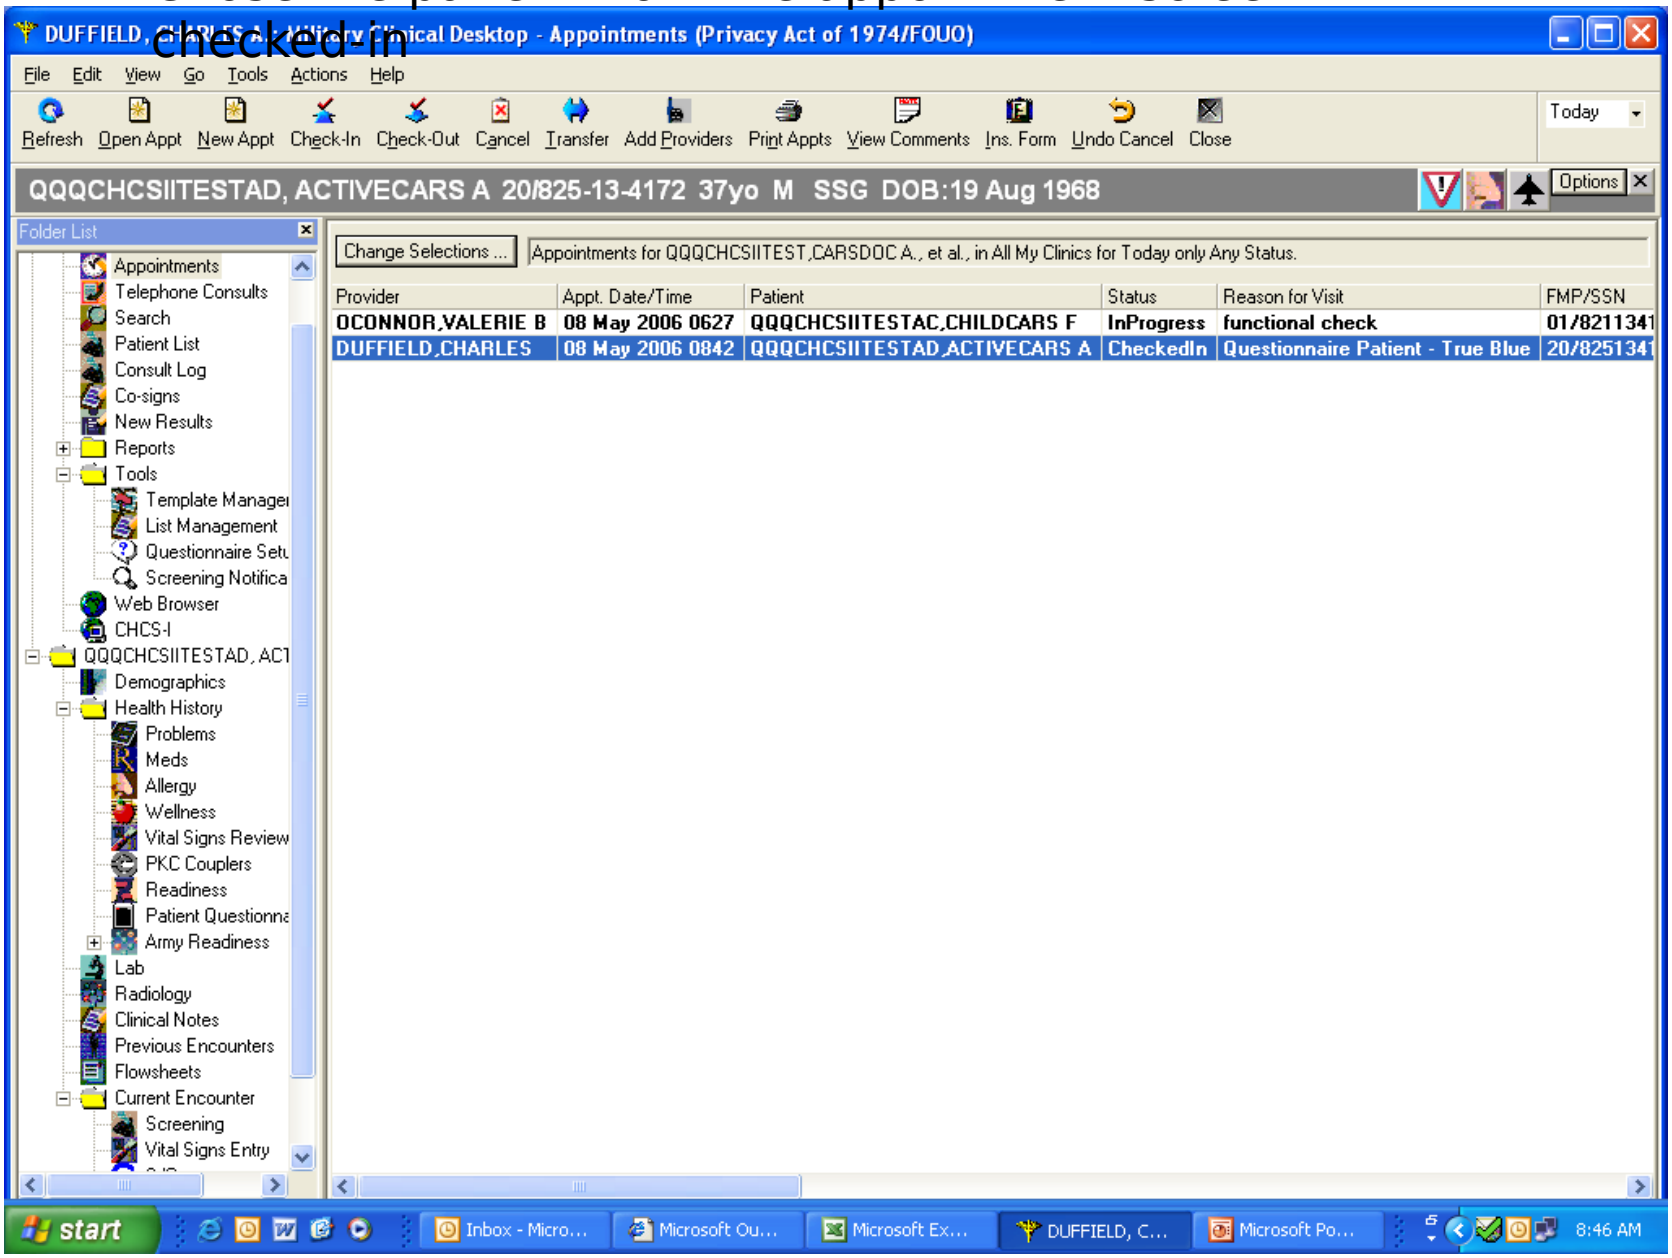
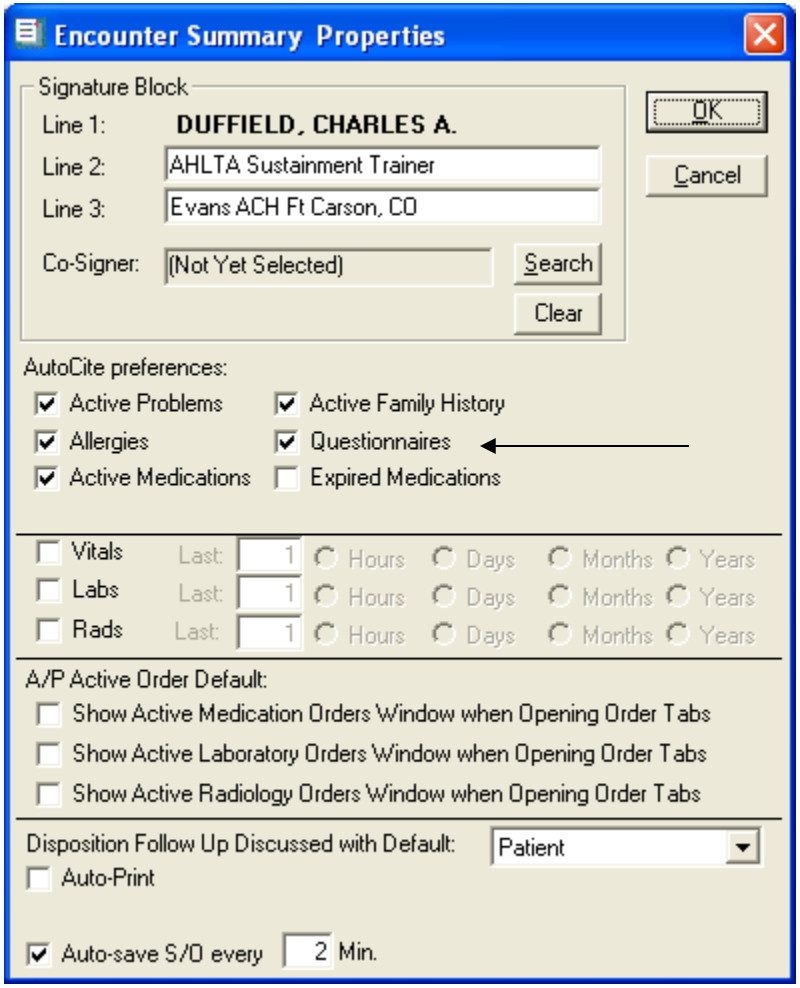
AHLTA – Questionnaires

True Blue

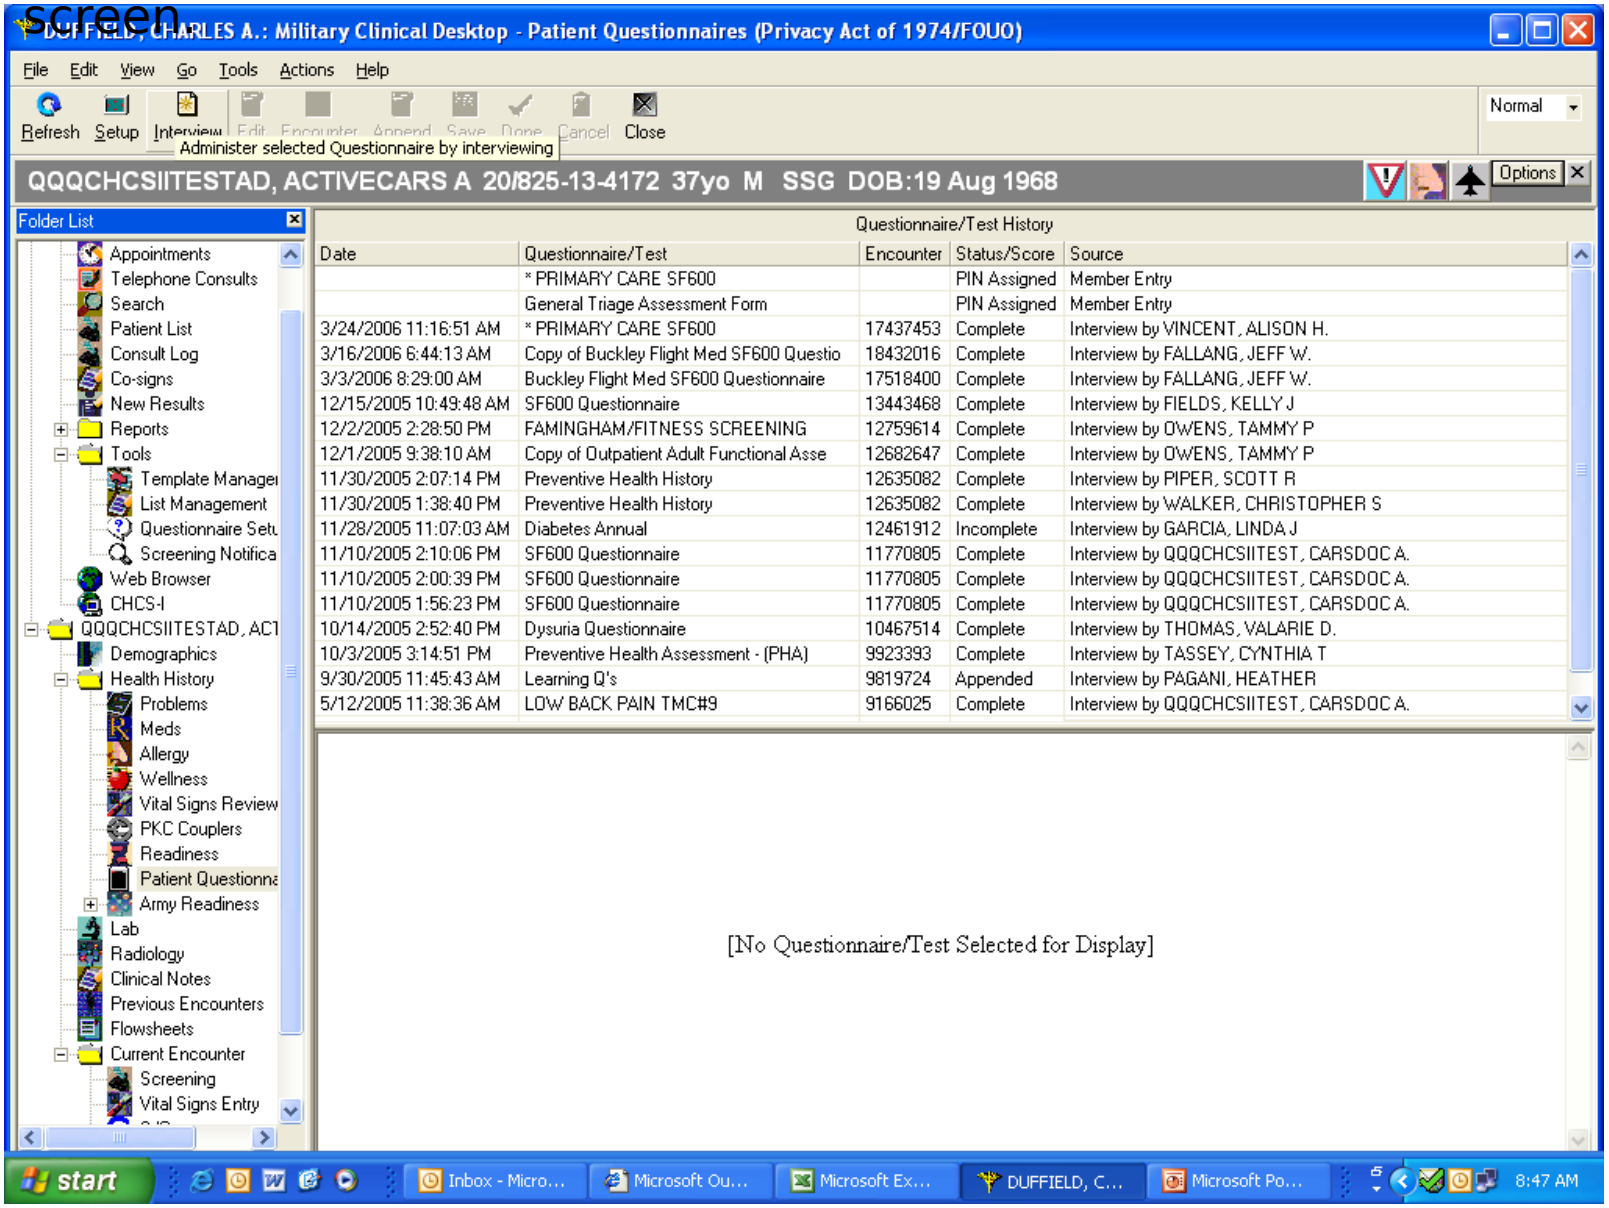
Chose the patient from the appointment screen – checked-in



In the Encounter Summary Properties, Questionnaires must be set/checked before the results will appear on the SF-600

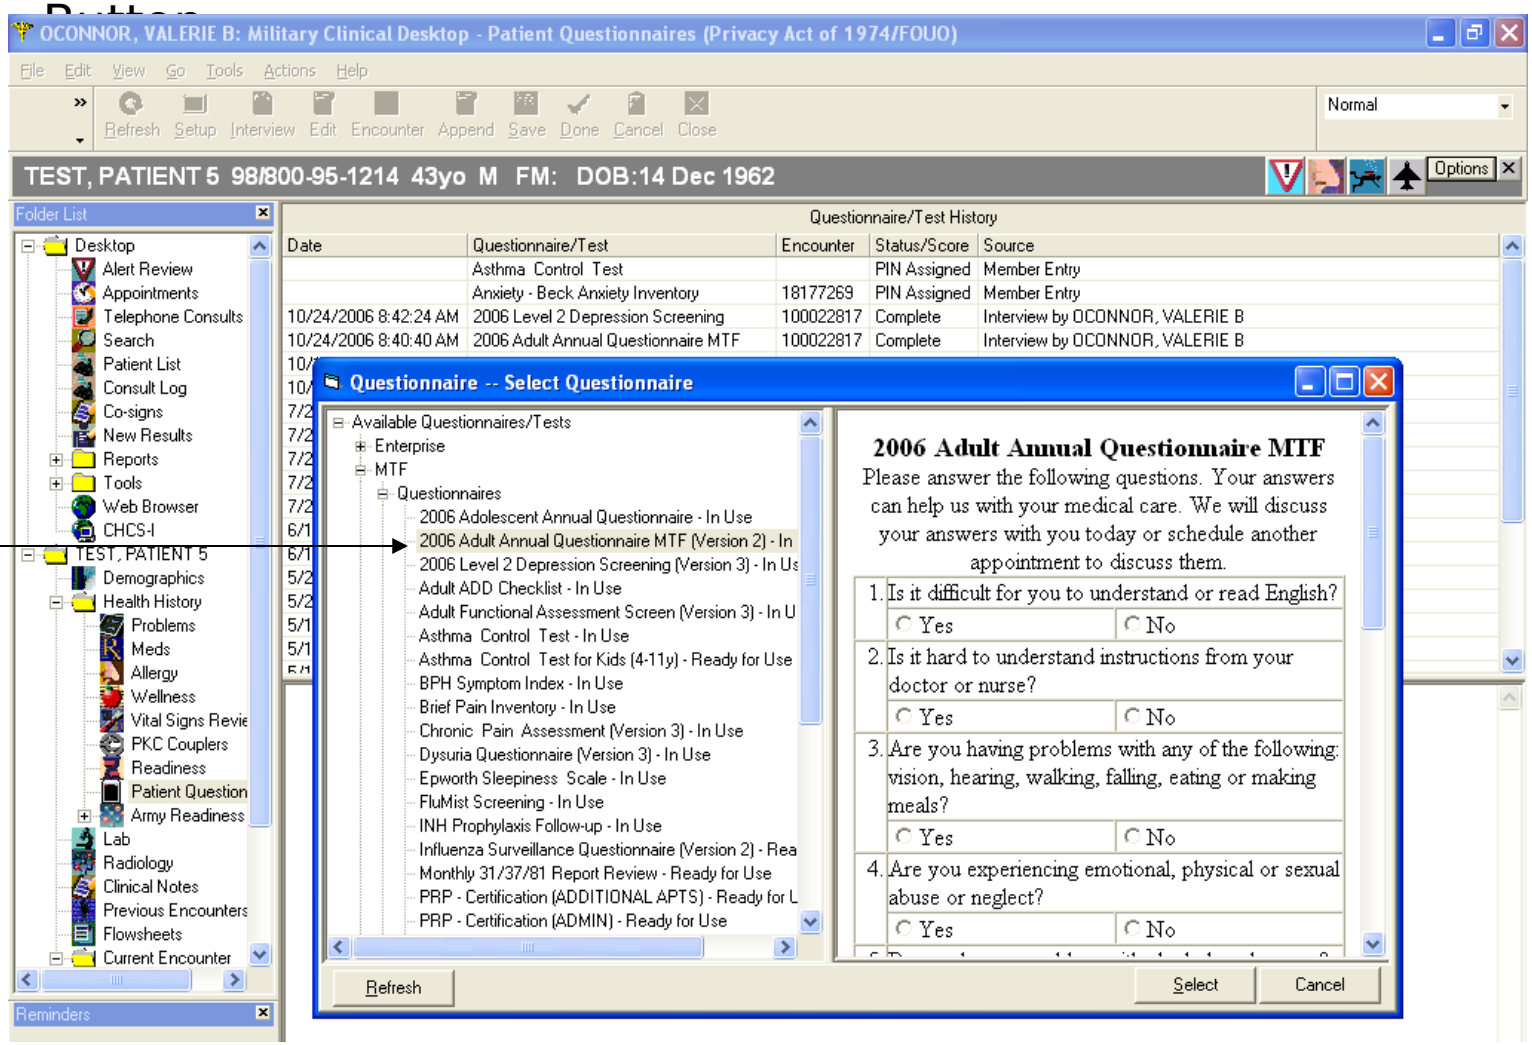


In the patients record, select Patient Questionnaires and then select Interview from the Action Bar menu at the top of the screen.

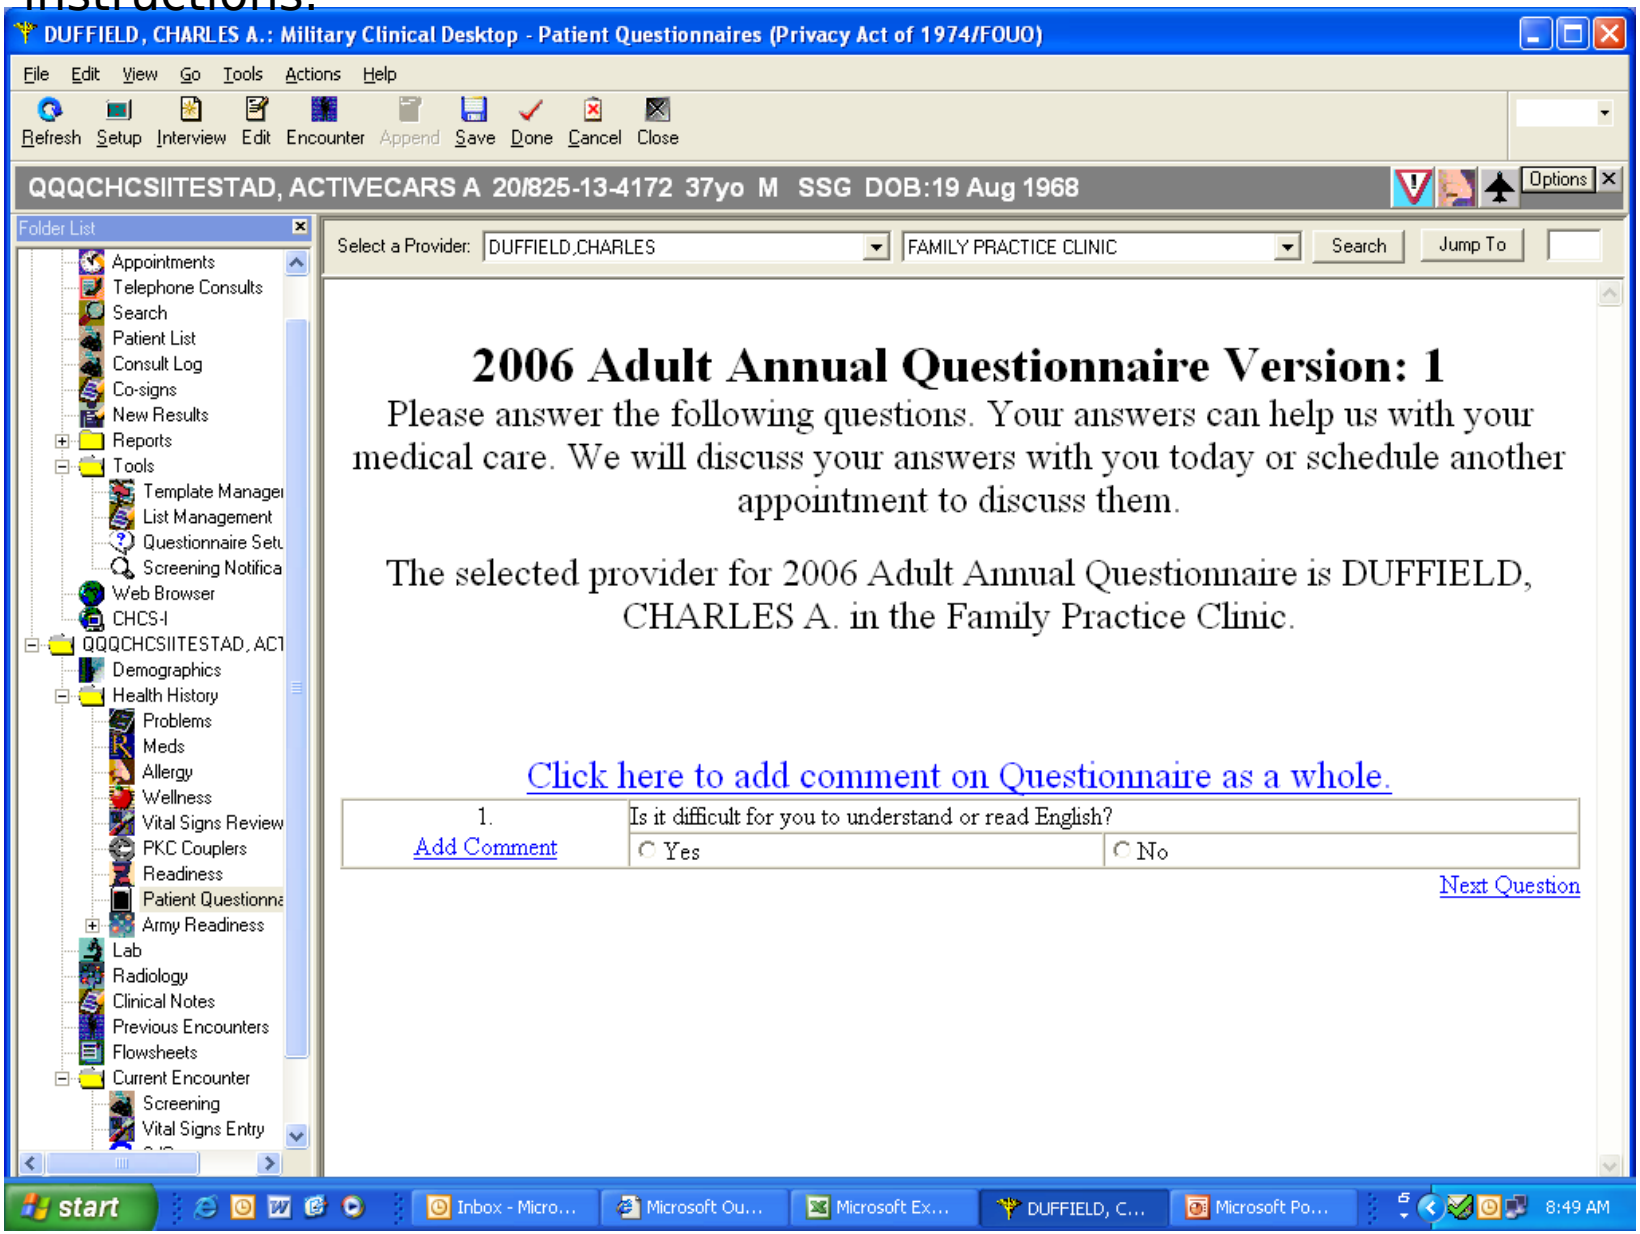


Select the proper level where the questionnaire was stored. For the True Blue, this is MTF/Questionnaires.

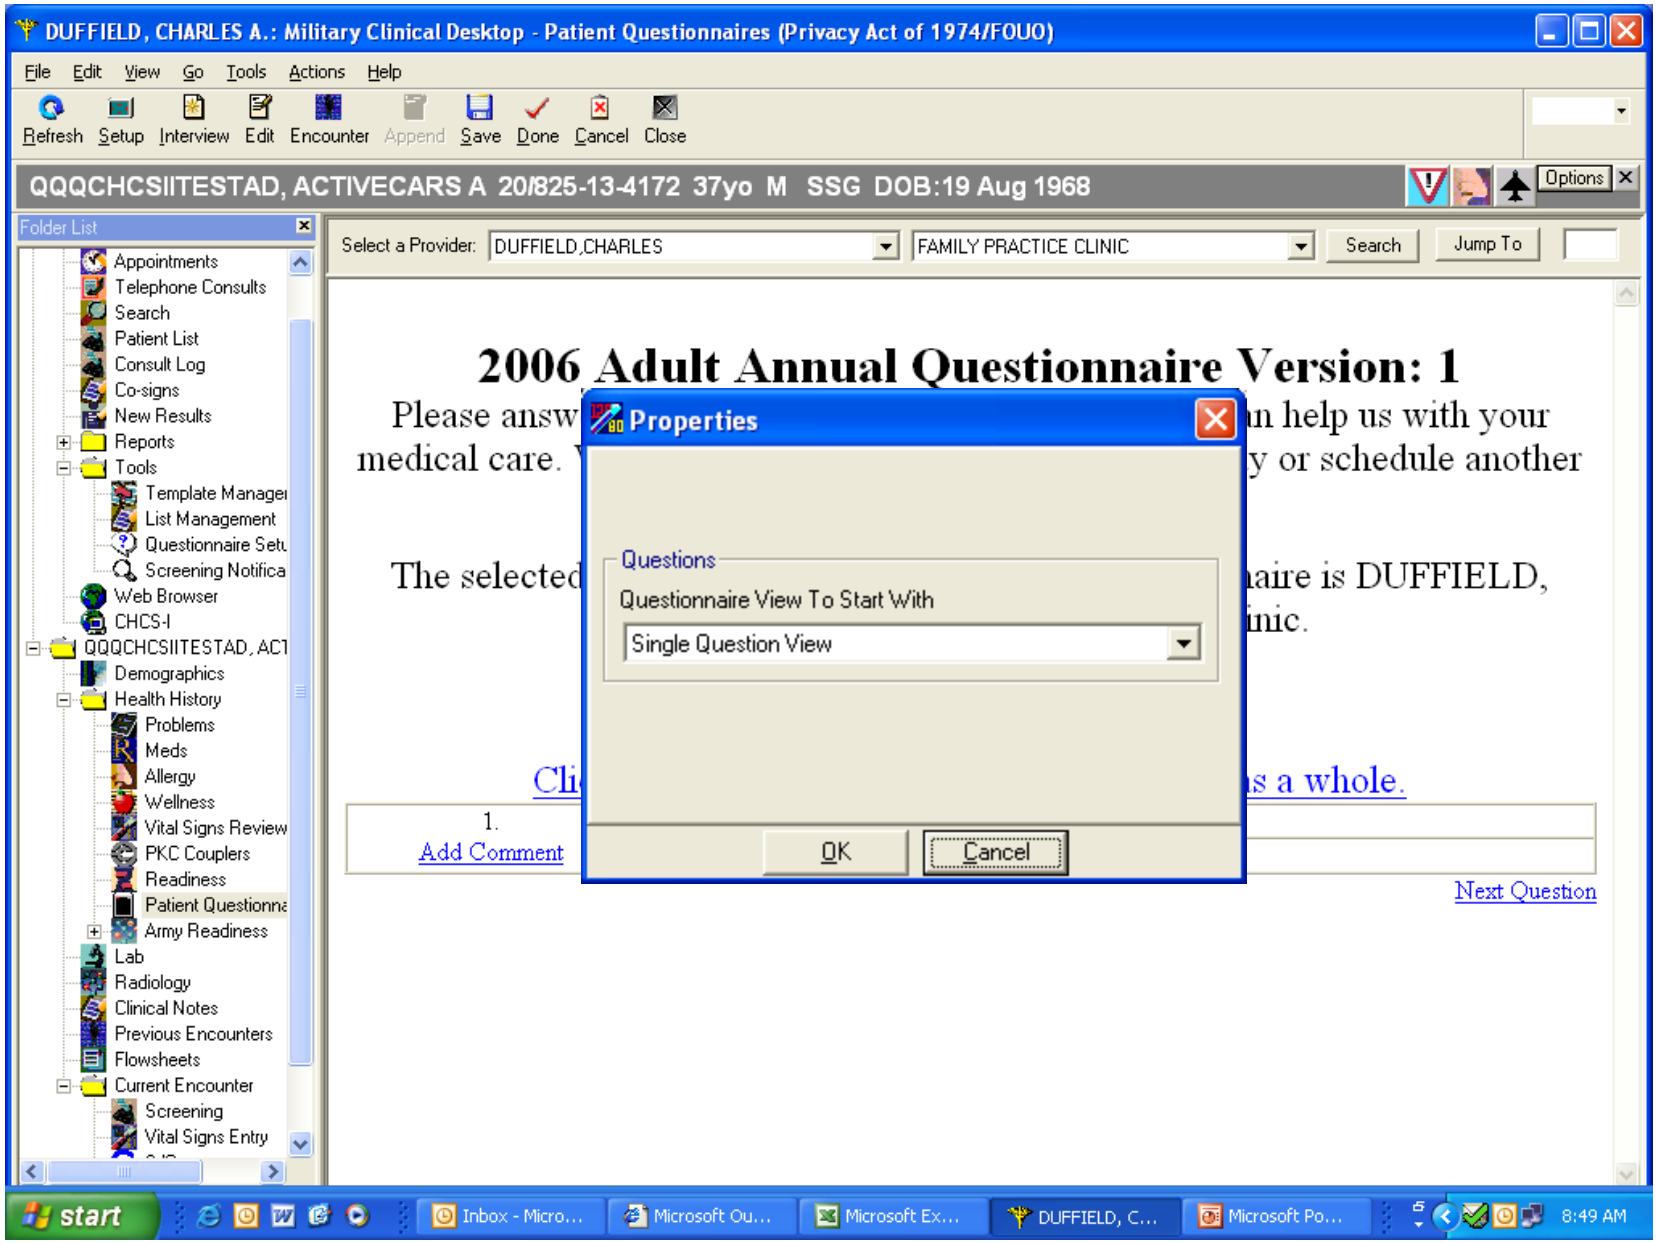
Choose the proper Questionnaire and then click the Select Button



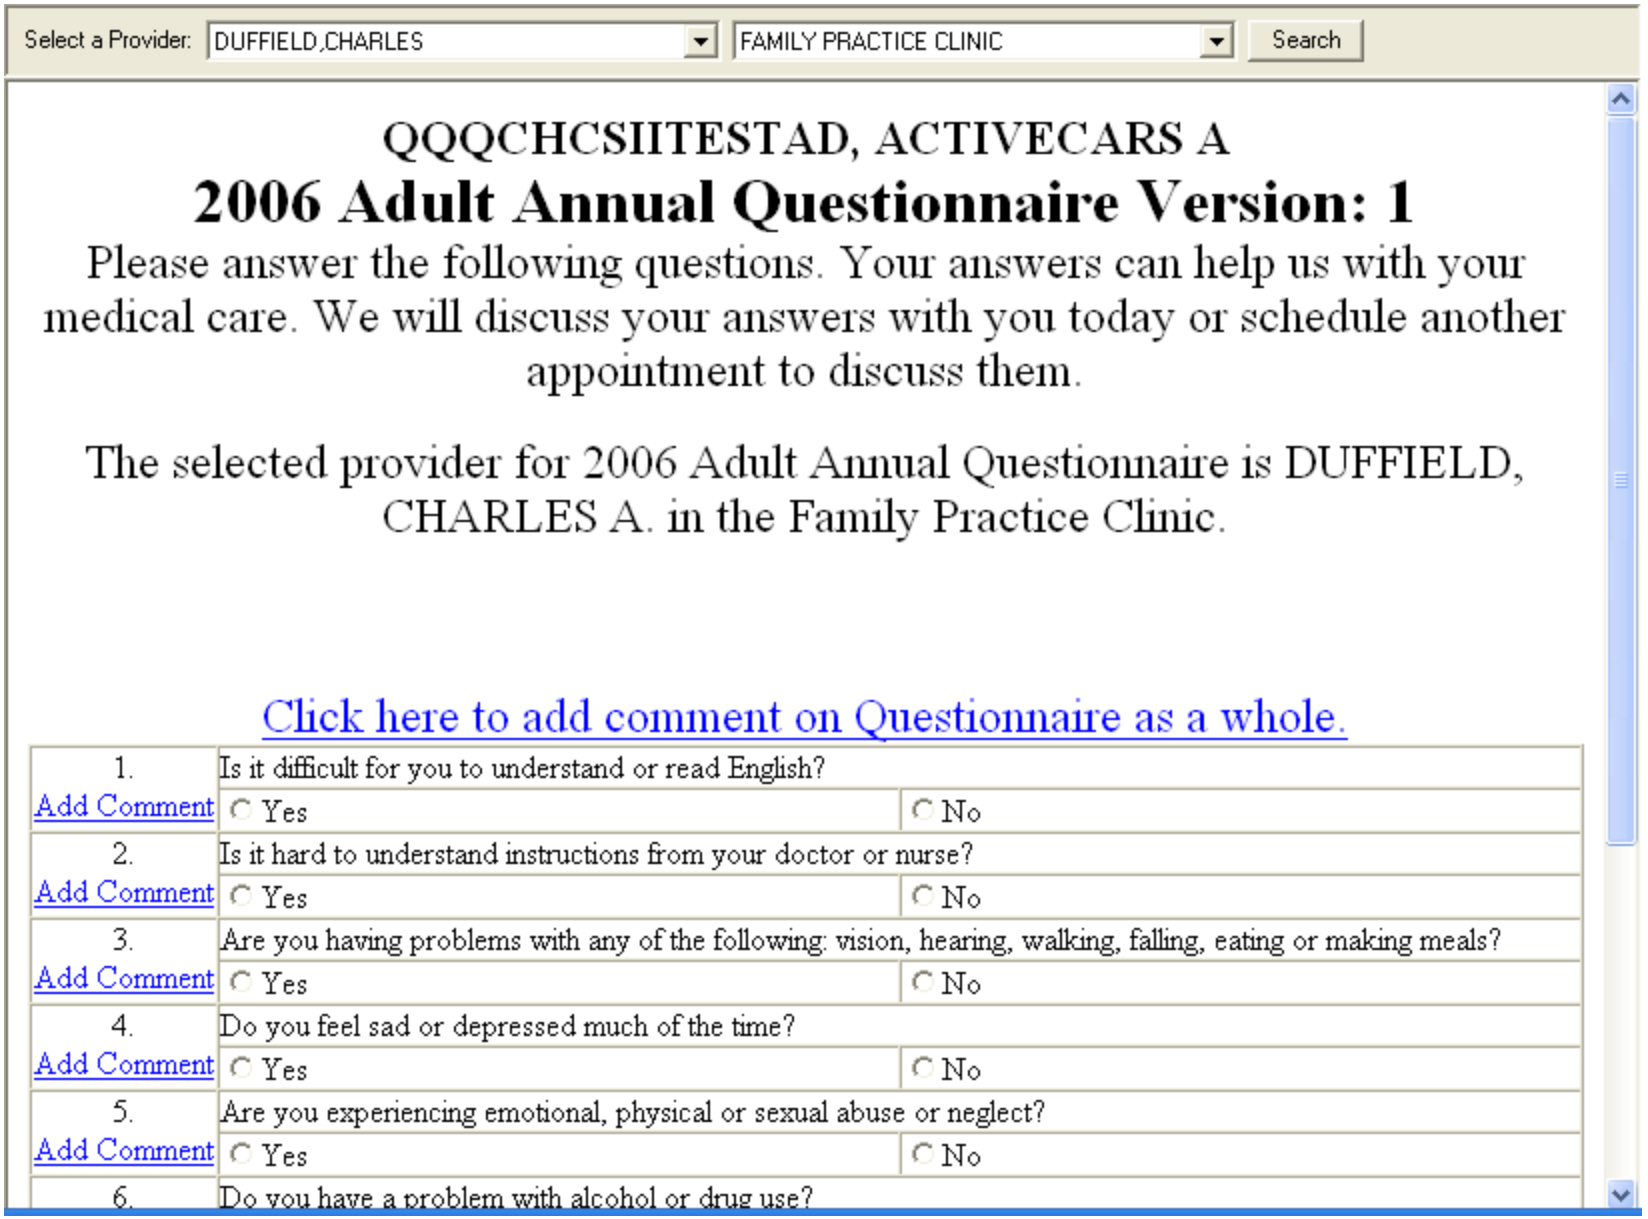
The questionnaire will appear in the interview box with instructions.



You may choose from single or muli-question mode by clicking on the Option button at the end if Patient ID line.



Multi-question Mode



Adding a comment to question.

Please answer the following questions. Your answers can help us with your medical care. We will discuss your answers with you today or schedule another appointment to discuss them.

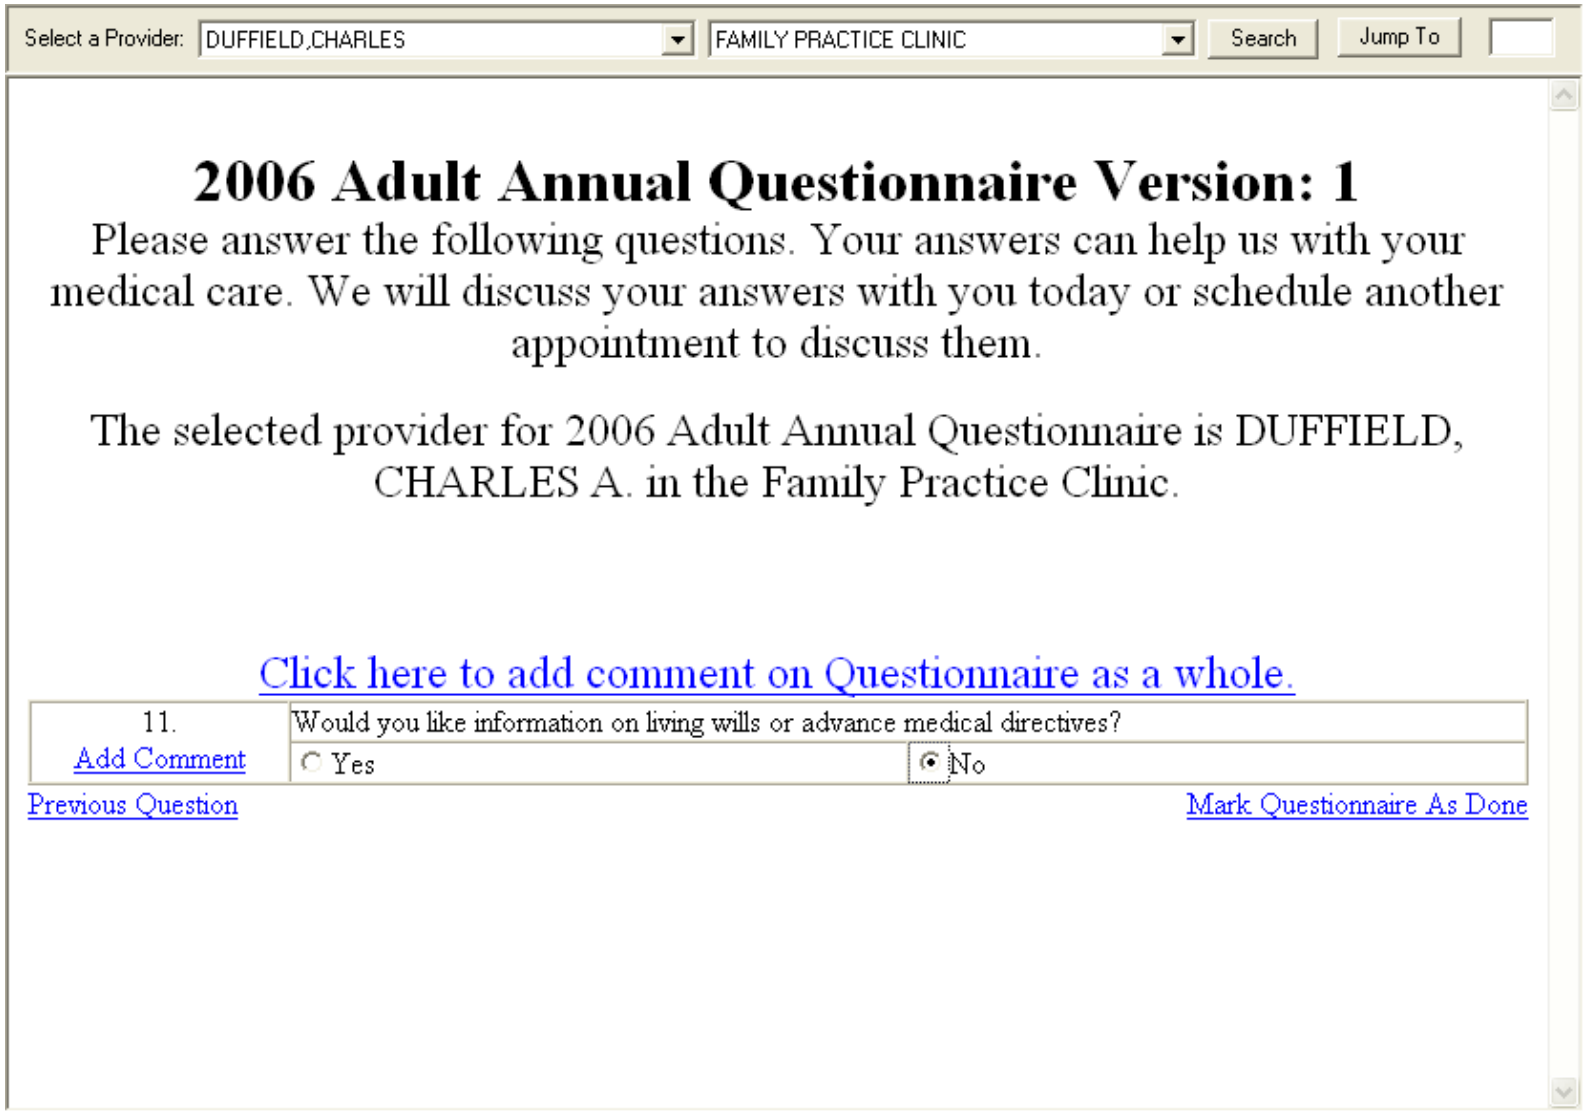
The selected provider for 2006 Adult Annual Questionnaire is DUFFIELD, CHARLES A. in the Family Practice Clinic.

Click here to add comment on Questionnaire as a whole.

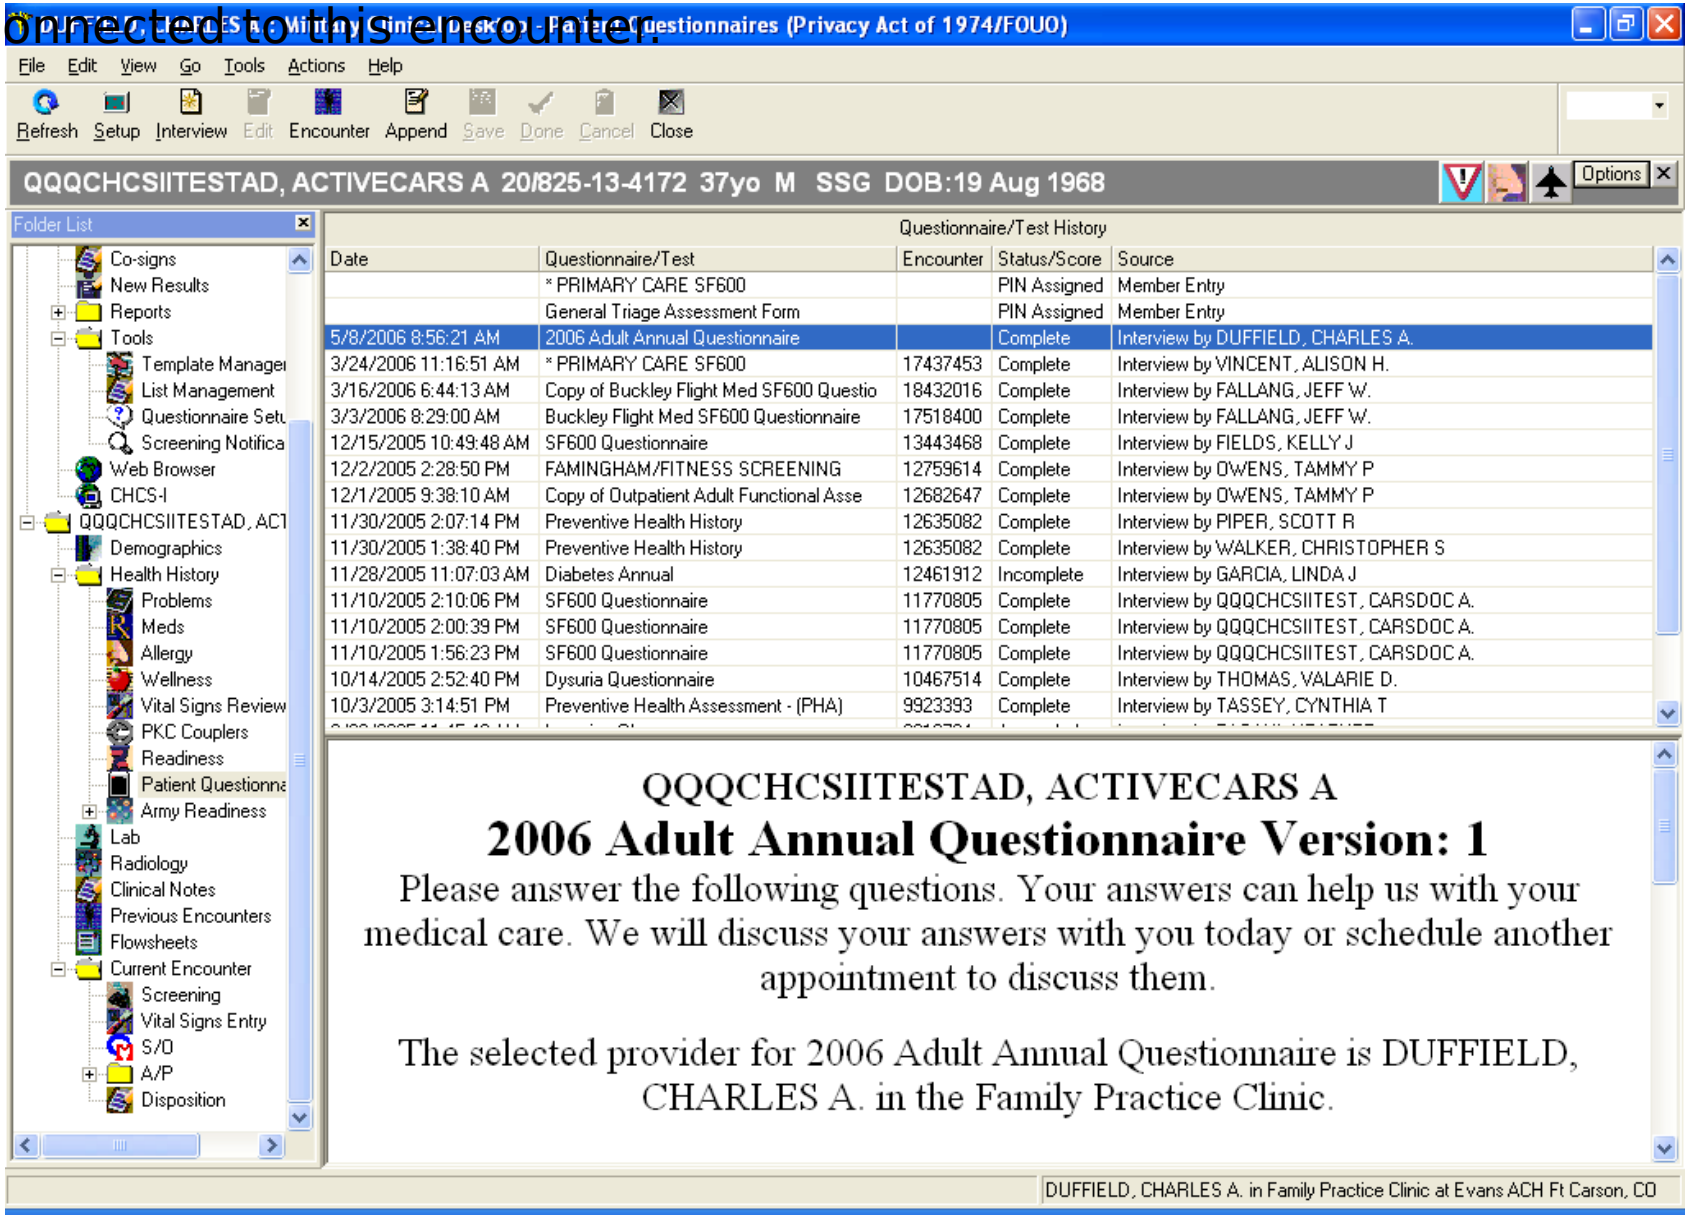
7. Add Comment	Have you gained more than 10 lbs without any reason in the past 6 months?	
	(•) Yes	( ) No
	Comment entered by DUFFIELD, CHARLES A. @ 08 May 2006 0855 Gained 15 lbs	

Previous Question Next Question

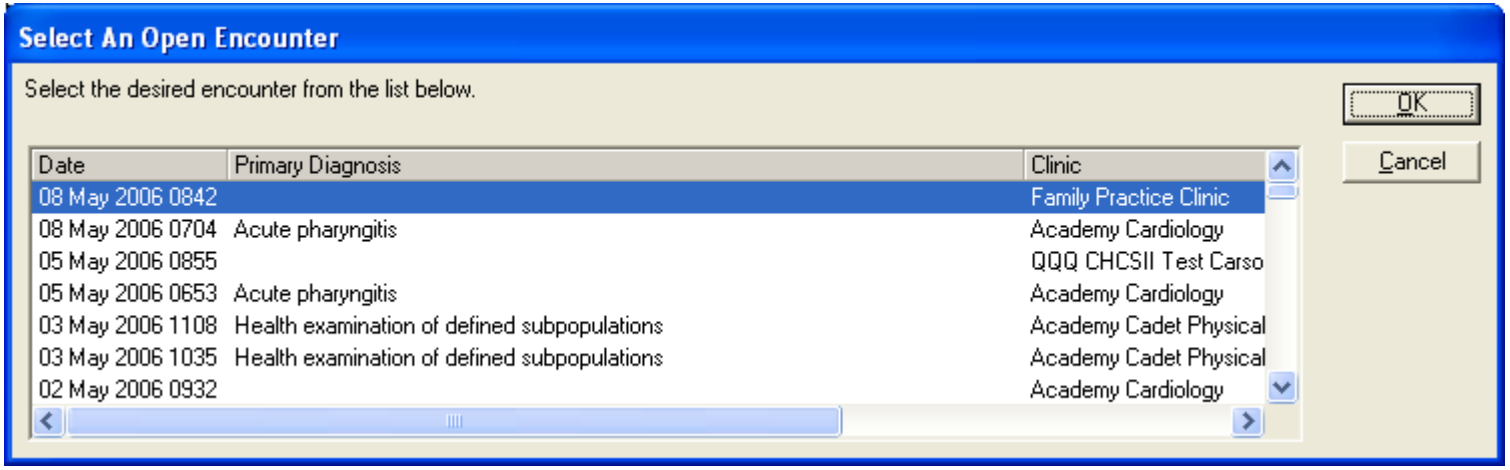
When you reach the end of the questions,
Mark the Questionnaire as Done.



When Marked as Complete, the window shows all interviews completed for this patient. You will need to select Encounter button from the Action Bar to have the results from the selected questionnaire connected to this encounter.



This window will ask you to verify the encounter you are connecting the questionnaire to....



If you have not already done so, open the encounter for the patient to show the electronic SF600. Notice that the questionnaire does not immediately appear. We must press the AUTOCITE button to ask it to re-collect and post the new information to the SF600.
